

Rappahannock Astronomy Club

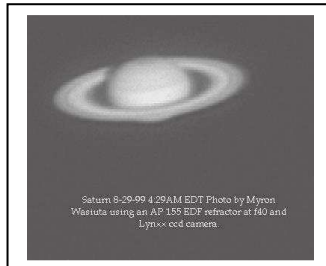

Application for Membership

Thank you for your interest in our club. We are a group of people interested in viewing the sky, and are open to membership to people from all walks of life. You do not need to be an expert or have a telescope to join! Membership does have benefits however:

- chance to interact with people with similar interests
- opportunity to observe under some of the darkest skies in the region
- free use of the club telescope on a monthly basis (an 8-inch dobsonian)
- chance to look through many different types of telescopes-some quite large
- subscription to a high-quality newsletter with timely articles about observing
- access to our webpage at www.raclub.org, and our email alert network for celestial phenomena

8-inch club scope
